

**BACHELOR IN COMPUTER APPLICATIONS (BCA)**  
**Term-End Practical Examination**  
**June, 2007**

**CS-67P : RDBMS LAB**

*Time allowed : 2 hours*

*Maximum Marks : 75*

---

**Note :** There is one **compulsory** question in this paper carrying 50 marks. 25 marks are for viva-voce.

---

1. Students registration and evaluation division wants to keep records of examination forms received from students for both theory and practical, admit card dispatched, pending, rejected and generate different types of reports.

Do the following activities for the above :

- (i) Design and implement the suitable normalized database tables. Considering the above requirements you are also required to perform integrity checks and show the relationship among tables and key attributes (foreign key). 25
- (ii) Design and implement suitable queries/forms for the above problem statement. 25
